

Merry Christmas From The Johnson's

Rick, 39,

continues to be busy with Motorola. Travels this year included, Canada, Mexico, Germany, England, Scotland, Tokyo, Singapore, and mainland China.

The golf game has never been better, getting an early start in Phoenix in February and playing almost every week thru the summer and fall. Highlight of the golf year has to be a fly-in on a 2 engine turboprop to Michigan's Crystal-Down's (rated # 8 in the country) as the guest of best buddy Bob Moran for a day of golf.

In June of this year our good friends from Scotland, Sandy & Helen Herd visited us for 2 weeks of golf, fun and relaxation. (Sandy is a fellow Buddy Bob and I met while golfing in Scotland.) In April of 1995 we (including my dad) will be visiting them in Scotland for a week of golf. I can't wait.

Kathy, 33,

continues to be SuperWoman combining raising 4 male charges, while doing 20 hours per week of Medicare billing work from the home. Luckily Rick is extremely helpful - yeah sure. She also found a way to trim herself back to her 1985 wedding weight. She has never looked better!

She still keeps area clothing, craft and toy stores depleted of inventory, while managing to keep us a step ahead of bankruptcy court. But hey-that's a small price to pay for the very best wife & mother this family could ever have.

Thursday's Kathy bowls with sister-in-law Jean, while Dad watches 40 kids from the bowling alley nursery. I don't think her average is higher than her weight, but there's always next year.

Kathy & Rick were up in Toronto for a December Weekend of shopping, relaxing and seeing the Rolling Stones in concert (for the 4th time).

Happy New Year In 1995 !

Peace On
Earth And
Good Will
Toward
Men

Bryan, 8

is an excellent 2nd grade student at Riley. Over the summer he played in a city soccer league and was their most consistent middle defenseman. With his Dad, he enjoyed his first Rolling Stones concert this summer where he kept asking "Daddy, What's that funny smell?" Although he won't admit it, he's sweet on the little girl next door named Ashley.

Ben, 6

started afternoon kindergarten at Riley where he is doing extremely well. He also started playing soccer this year and made a spectacular save in goal when an opponent came in all alone. You WILL see this boy in major league baseball with the sweetest lefty swing you've ever seen. He's keeping the tooth fairy busy with a grin only a mother could love.

Brett, "Stonewall", 4.

What can you say about this kid? Most likely to be arrested? He is the only kid we know who insists on wearing his underpants (if he's wearing any at all), on backwards so he can look at the Batman pictures stenciled on them. He by far is the toughest of the four and had surgery twice this year. He is the apple of his grandparent's eye, with a spirit no one can break.

Bradley, 2

is a star pupil in his speech class where he is making tremendous progress. His alphabet sounds great and he's starting to put sentences together. He likes watching hockey on TV with his Dad and will get firewood from the garage whenever asked. There sure is something special about the baby.
